SUMMARY

A dedicated Computer Sciences student at Universiti Teknologi Mara (UiTM) with a 3.19 CGPA and a strong foundation in software development. Proficient in programming languages including Java, Python, and the Laravel framework, with practical experience building web-based systems and management dashboards. Skilled in data structures, version control (Git), and data analysis tools. Possesses strong leadership and problem-solving abilities developed through academic projects and professional experience. Seeking a full-time position to contribute technical skills and drive organizational productivity.

EDUCATION

Bachelor of Computer Sciences

Mar 2024 - Aug 2026

Universiti Teknologi Mara UiTM Jasin, Melaka

Relevant Coursework: Database Engineering, Artificial Intelligence Algorithms, Game Design and Development

CGPA: 3.19

Diploma in Computer Sciences

Oct 2021 - Feb 2024

Universiti Teknologi Mara UiTM Jasin, Melaka

Relevant Coursework: Computer Organization, Fundamentals of Data Structure, Digital Electronics, Information System Development

CGPA: 3.39

WORK EXPERIENCE

Data Analyst Internship

Oct 2023 - Feb 2024

JABATAN PENDIDIKAN NEGERI SEMBILAN

- **Developed the "War Room SPM 2023" Dashboard:** Spearheaded the creation of a centralized data analytics platform using **Google Looker Studio** to analyze state-wide exam results (SPM, Trial Exams, and Mid-terms).
- **Database Management:** Managed and integrated data sources using **Microsoft Excel** and **Google Sheets** to feed real-time data into interactive visualizations.
- **Advanced Data Visualization:** Implemented advanced dashboard features including Pivot Heat Tables and Slider Filters to allow officers to filter data by district, school, and subject.

Full-stack Developer Internship

Mar 2026 - Jul 2026

ELVIRA SYSTEMS SDN BHD

- **Web-Based System Development:** Leveraged Google Apps Script to build a web application that synchronizes and centralizes order data from Google Sheets and Google Forms. Additionally, engineered a specialized registration dashboard to streamline the intake process for competitions.
- **Corporate Website Reconstruction:** Redesigned the official company website with a contemporary aesthetic and updated content to effectively communicate core business services to prospective clients.
- **Developed Workspace Dashboard: Developed Elvira Admin Portal:** Engineered a comprehensive internal management system using **Laravel** to consolidate operational workflows, including GPS-enabled attendance, leave management, and task tracking. Integrated role-based security, automated approval cycles, and administrative reporting tools to enhance organizational productivity and minimize manual oversight.

SKILLS

Software: Java, Python, MySQL, Microsoft Excel, HTML, PHP, Laravel Framework, Git

Interpersonal: Time Management, Problem Solving, Leadership

Language: Bahasa Melayu, English

EXTRACURRICULAR ACTIVITIES

Attending Seminar and Competition "Top Coder" by UiTM

2023

- Learning main structure of Python

- Competing with other participants

ADDITIONAL INFORMATION

- Familiar with basic programming principles and office management software
- Possesses a valid driving license and owns a personal vehicle
